

BAND APP

Mr. Galvin communicates information several ways to the students and families by sending ParentSquare messages, relying on the students to pass information onto their families, and the use of a communication application called Band App.

Band App is a student-run communication tool. We haven't used this tool in a while, but this year the students will start using this app again for reminders and changes that may occur in the schedules. Both students and parents/guardians can access this app. Download it onto your smartphone . . .the logo looks like this:

Once you're in the Band App, you need to be added and invited to our school band account. Press the "More" option on the screen, and then "Check Invite". Once you've pressed "Check Invite" you then select "I got a Code" and input this code: **6899 CUTLET** (see the attached image samples)

This code **6899 CUTLET** will expire in 48 hours. If you'd like to be added to our Band App account and the code has expired, please email susan_cosper@nvusd.org.
